March 10, 2015

Dear Licensee,

The Department for Natural Resources, Division of Mine Safety (DMS) is pleased to announce its surface and underground foreman retraining schedule through the month of June 2015. This schedule will accommodate evening and weekend training opportunities at all of the Division of Mine Safety regional offices throughout the state. The course schedule is designed to maximize the course offerings, locations, and timing so that training needs can be met in the most convenient manner possible to the miner. We will also provide two (2) hours of first aid training at the conclusion of each 6 hour mine foreman retraining class for those interested. As always, this training is free.

For your convenience, the retraining schedule for each region from March through June is now available at minesafety.ky.gov.

In order to ensure that we have adequate space available in each class we strongly urge you to pre-register for these classes by calling the regional office. You can find the phone numbers for the offices on the training schedule or on our web site. Pre-registration is most important if you plan to send multiple trainees. We will accept walk-ins provided there is adequate seating, but we also encourage walk-ins to call ahead to check for seating availability.

Sincerely,

A handwritten signature in blue ink that reads "Steve Hohmann".

Steve Hohmann
Commissioner
